

## Sketch 1 — Student Checking Gym Crowd Level

**Persona:** USC student wanting to know if the gym is busy.

**Storyboard / Flow:**

1. Student opens the Gym Attendance site.
2. Logs in using their USC account.
3. Selects Main Gym from the dropdown.
4. System displays the current crowd level (e.g., "MEDIUM").
5. Student decides whether to visit the gym now or later.
6. Logs out.

## Sketch 2 — Admin Viewing Attendance

**Persona:** Gym administrator managing facility analytics.

**Storyboard / Flow:**

1. Admin logs in through the staff portal.
2. Navigates to the “Attendance” dashboard.
3. Views attendance data sorted by date.
4. Filters or scrolls through check-in counts.
5. Clicks Export to download a daily report.
6. Logs out after verifying the report.

## Sketch 3 — Gym Staff Scanning ID

**Persona:** Gym front desk employee.

**Storyboard / Flow:**

1. Staff logs into the check-in system.
2. Opens the "Gym Check-In" page.
3. Selects Scan Card or Scan Code mode.
4. Student presents USC ID or QR code.
5. System confirms check-in with user info.
6. Staff greets student and the screen resets for the next scan.
